About our Cookie Dough...

Our premium cookie dough is made with only the best ingredients, natural and fresh. We use only pure butter, pasteurized eggs, and fine quality chocolate chips. We know quality ingredients make a quality cookie. You'll notice our cookies only stay fresh for about a day after they are baked. This is because they are made without preservatives. Our dough is pre-portioned, so you can bake as few or as many as you like, and always enjoy them fresh! For best results, bake them in your conventional oven; however, you may also try your toaster oven when baking just a couple of cookies at a time—just reduce the baking time by 2-3 minutes!

Your cookie dough will keep in your freezer for about six months from the time of purchase. Just keep it in an airtight container, removing only the pieces you want to bake. Keep the dough frozen until it goes into the oven. It is easy to enjoy freshly baked cookies whenever you'd like them, and as you will soon discover, nothing compares to soft, warm cookies from Your oven. The only way to improve upon freshly baked cookies is to make them effortless. We've done that for you: no mess, no preparation, no hassle. Enjoy baking gourmet cookies for guests, for your family, and for gift-giving.

Windmill Hollow premium cookie dough currently comes in 13 varieties, with more delicious varieties on the way. For more information, please visit our website: www.windmillhollow.com. Watch for our Cookie of the Month Club, coming soon. A perfect gift for college students, grandparents, and anyone who enjoys good cookies!

*Please Note: Our cookie dough contains raw egg, and should not be consumed without fully cooking. It must be kept frozen until ready to bake—do not thaw at room temperature.
